

Highly Breathable Penetrating Treatment Minimizes Efflorescence

# Paver Enhancer™

**Color Enhancing Treatment for  
Architectural Pavers**

**Enhances & enriches  
color development of  
architectural pavers,  
and improves stain  
resistance.**

*Before*

*After*

# Paver Enhancer™

*Color Enhancing Treatment for Architectural Pavers*

## DESCRIPTION

Paver Enhancer™ is a penetrating, water-based treatment that deepens and enhances the color of porous architectural dry cast pavers. This product was specifically designed for use on pavers for maximum cosmetic enhancement with uncompromised breathability. Paver Enhancer penetrates the surface of pavers, minimizing the formation of efflorescence and creating a matte finish that resists staining. Paver Enhancer is very low in Volatile Organic Compounds (V.O.C.) and compliant in all US States and Canada.

## Can Be Used 3 Ways:

1) By itself

*For rich color development and matte finish*

2) Apply over a penetrating water repellent (Spall Guard WB 10)

*For extra protection*

3) Apply prior to a glossy sealer (Traz™ 25, Polyseal™ WB)

*For color development and gloss*

## USES

- Exterior pavers to enhance, deepen and enrich color development
- Create a uniform “finished” look to architectural pavers

## ADVANTAGES

- Not film forming and fully breathable – will not contribute to the formation of efflorescence
- Protects pavers from water damage
- Resists staining from oil, grease, food and beverages
- Paver Enhancer is a very low VOC emission product at <100 g/L VOC
- May be applied prior to use of penetrating water-proofer or glossy film forming sealers

## TECHNICAL DATA

- Complies with National Volatile Organic Compound Emission Standards for Architectural Coatings, Federal EPA Regulation 40 CFR Part 59
- V.O.C. content: <100 gm/L
- Flash point: >212°F (100°C)

### Drying Time @ 70°F (21°C) and 50% Relative Humidity

Dry Condition	Time
Dry to touch	2 hours
Light foot traffic	4 hours
Wheeled traffic	24 hours

## Our Knowledge is **Concrete**™

We manufacture a complete line of specialty products to improve, repair, protect and beautify concrete and masonry. Contractors rely on our experience, knowledge & quality to help ensure success.
