

# ChemMasters® Products Recommended for Pavers

Raymond Builders Supply began selling stone and masonry products in 1946. Over the years they've learned a thing or two about enhancing and protecting the appearance of concrete, masonry and pavers. Like ChemMasters, Raymond Builders Supply is a family owned business that cares deeply about customers and maximizing the value of investments they make in their homes.

"We always recommend Chemmasters sealers as part of any paver patio installation" says Raymond General Manager, Greg Wright. "It's an inexpensive way to make your paver patio look great for many years."

ChemMasters offers a variety of products to beautify and protect pavers, including **Paver Enhancer** for color development, **Traz 25-A** and **Polyseal EZ Shield** for color development with gloss and abrasion

**Raymond Builders Supply recommends ChemMasters sealers to all their paver customers**

protection, and **SpallGuardWB 10** for a penetrating water repellent. ChemMasters offers different solutions for different preferences and tastes. Visit our website at [chemmasters.net](http://chemmasters.net) to read about all our products and view the ChemMasters catalog and our Perfect for Pavers flyer.

**"Chemmasters products enhance the appearance of pavers, make them look newer for longer, and protect them from the weather, salt, and stains."**

**Greg Wright** - General Manager, Raymond Builders Supply, Inc.

**Project Description:** Sealing of exterior paver displays to demonstrate the appearance of ChemMasters products over differing paver types and styles. Water-based, solvent-based, film forming and penetrating sealers were selected to represent a broad range of available chemistries to meet a wide variety of aesthetic preferences.

**Jobsite:** Raymond Builders Supply  
Geneva, OH

**Contractor:** ChemMasters Volunteers  
Madison, OH

**Polyseal EZ Shield:** Darkens and enhances color of pavers. High gloss. Enhanced water repellency. Solvent-based <350 g/L VOC

**SpallGuard WB 10:** Penetrating water repellent. Does not alter the appearance of pavers or concrete. Water-based <200 g/L VOC

**Traz 25-A:** Darkens and enhances color of pavers. Improves abrasion resistance. Solvent-based <400 g/L VOC

**Paver Enhancer:** Enhances color development of pavers. Natural look, matte finish. Water-based <100 g/L VOC
