To Whom It May Concern:

Release12 is a clean light straw colored form release agent for use with decorative and architectural concrete, precast, and form and pour applications. Its dual action formulation is lightly reactive with improved barrier characteristics and a pleasant cherry scent.

The VOC content of this product is < 250 g/L when calculated to California Air Resources Board Architectural Coatings Program. **Release12** meets the federal VOC requirements of < 250 g/L VOC for Form Release Compounds. **Release12** does not meet the requirements of the South Coast Air Management District of < 50 g/L VOC for Form Release Compounds.

This product contains 88 % by weight recycled materials. The % recycled is multiplied by the cost of the material to determine the recycled content value. This may contribute to MR Credit 4.1 Recycled content 1 point.

Release12 is manufactured at 300 Edwards Street, Madison, OH. 44057. If your project falls within a 500-mile radius or $(\text{Distance by rail}/3) + (\text{Distance by inland waterway}/2) + (\text{Distance by sea}/15) + (\text{Distance by all other means}) \leq 500$ miles [800 kilometers] of this location; the product is considered a locally produced material and can help contribute to earning MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally 1 Point, and MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally 1 Point in addition to MR Credit 5.1.

ChemMasters products by virtue of being manufactured in United States are in compliance with the "Buy American Provision" set forth in the American recovery Reinvestment Act (ARRA) of 2009, section 1605.
