# Graffiti Stopper 1K™

## DON'T LET GRAFFITI ARTISTS DEFACE YOUR SPACE!

- One-component, solvent-based anti-graffiti coating that cures in environmental moisture
- Forms a visible, transparent film that is highly water-repellent & weather-resistant
- Reduces the adhesion of aerosol paints and facilitates easy removal of them and other markings
- protect exterior concrete, masonry, metal, galvanized metals, traffic signs, rail cars, bridges, bathroom stalls, schools and many other areas subject to graffiti damage

Apply by brush, roll methods, or spray

Creates a non-porous surface that resists graffiti adhesion

Remove with soap and water with light abrasion
