To Whom It May Concern:

Chemisil™ is a clear, water-based sodium silicate compound used to harden and dustproof concrete. **Chemisil** hardens the surface of dusting concrete and improves surface abrasion resistance of all concrete.

The VOC content of this **Chemisil** is 0.0 g/L when calculated to California Air Resources Board Architectural Coatings Program. This could qualify for EQ credit 4.1 Low Emitting Materials: Adhesives & Sealants, or 4.2 Low Emitting Materials: Paints and Coatings, but not both.

There are no recycled materials used to manufacture **Chemisil**.

Chemisil is manufactured at 300 Edwards Street, Madison, OH. 44057. If your project falls within a 500-mile radius or $(\text{Distance by rail}/3) + (\text{Distance by inland waterway}/2) + (\text{Distance by sea}/15) + (\text{Distance by all other means}) \leq 500$ miles [800 kilometers] of this location; the product is considered a locally produced material and can help contribute to earning MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally 1 Point, and MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally 1 Point in addition to MR Credit 5.1.

ChemMasters products by virtue of being manufactured in United States are in compliance with the "Buy American Provision" set forth in the American recovery Reinvestment Act (ARRA) of 2009, section 1605.
