To Whom It May Concern:

Traz™ 25 is a single component, solvent-based, acrylic methacrylate lacquer membrane-forming concrete sealing compound. This material seals salt, mild acids, oils and solvents out of concrete.

The VOC content of this product is < 700 g/L when calculated to California Air Resources Board Architectural Coatings Program. **Traz 25** does not meet the requirements of the South Coast Air Management District of less than 100 g/L VOC for concrete curing compounds. This would not qualify for EQ credit 4.1 Low Emitting Materials: Adhesives & Sealants, or 4.2 Low Emitting Materials: Paints and Coatings.

There are no recycled materials used to manufacture **Traz 25**.

Traz 25 is manufactured at 300 Edwards Street, Madison, OH. 44057. If your project falls within a 500-mile radius or $(\text{Distance by rail}/3) + (\text{Distance by inland waterway}/2) + (\text{Distance by sea}/15) + (\text{Distance by all other means}) \leq 500$ miles [800 kilometers] of this location; the product is considered a locally produced material and can help contribute to earning MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally 1 Point, and MR Credit 5.2: Regional Materials: 20% Extracted, Processed & Manufactured Regionally 1 Point in addition to MR Credit 5.1.

ChemMasters products by virtue of being manufactured in United States are in compliance with the "Buy American Provision" set forth in the American recovery Reinvestment Act (ARRA) of 2009, section 1605.
