Polyseal™ EZ

Bubble Resistant Low-VOC Cure & Seal

Pure acrylic, non-yellowing bubble resistant formula provides high quality curing, sealing and dustproofing for broom finished concrete with superior performance on decorative concrete. Darkens concrete and enhances integral colors with outstanding gloss characteristics in a bubble resistant, low-VOC formula. <350 g/L VOC

Polyseal™ A / Polyseal™ A Satin Finish

Pure Acrylic Cure & Seal

Pure acrylic formula provides high quality curing, sealing and dustproofing for broom finished concrete driveways, sidewalks and patios. Provides excellent cosmetics for decorative applications such as exposed aggregate and stamped concrete. Also available in satin/matte finish. <350 g/L VOC

Traz™ 25-A

Methyl-Methacrylate Sealer

Developed for use as a high gloss sealer on pavers, decorative exposed aggregate, stamped concrete and terrazzo stone. Superior resistance to UV light, freeze/thaw, acid rain, staining and water absorption with moderate chemical resistance. Non-yellowing formula. <400 g/L VOC

Stamped & Decorative Concrete Sealer 400-A

A Low-VOC Problem Solver

Specially formulated as a non-bubbling, slow evaporating sealer for stamped and decorative concrete in low-VOC states. Provides 200-300% longer working time during application, is less prone to blushing or whitening from over application, with no residual bubbles in the coating. VOC compliant in OTC and LADCO states, and throughout Canada. Non-yellowing formula. <350 g/L VOC

Gloss Restorer™ XL

Prevents Blushing

Chemically reacts with dull, weathered sealer to restore high gloss, luster and shine. More breathable than traditional sealers. Reduces buildup that may cause coatings to blush, whiten, blister or peel. <350 g/L VOC

Our Knowledge is ConcreteSM

We manufacture a complete line of specialty products to improve, repair, protect & beautify concrete and masonry. Contractors rely on our experience, knowledge & quality to help ensure success.
