Position Title: General Laborer

Location: ChemMasters – Madison, OH

Reports To: Vice President, Operations

Work Hours: First Shift – 40 hours / week | Overtime as needed

Pay: Starting at \$16 / hour, with wage increases

Job Description:

ChemMasters is seeking a reliable and hardworking Laborer to join our team at our manufacturing facility. This role is essential to supporting the production process, with a strong emphasis on working safely with various chemical materials. The ideal candidate will assist with a range of tasks across the factory and warehouse, contributing to efficient operations and product quality.

Key Responsibilities:

- Work on the assembly line to complete product orders
- Utilize hand and power tools to assemble component
- Move materials throughout the facility to support manufacturing needs
- Operate forklifts for material transport and handling
- Assist with basic mechanical tasks and maintenance support
- Maintain cleanliness and organization within work areas
- Perform other duties as assigned to support production goals

Skills:

- Prior experience in a manufacturing or warehouse environment preferred
- Familiarity with mechanical processes and the use of hand/power tools
- Ability to follow directions and work effectively as part of a team
- Assembly line experience is a plus
- Forklift operation experience is highly desirable
- Experience working with chemical products or in chemical manufacturing is preferred

Physical Requirements:

- Must be physically capable of performing heavy lifting (up to 50lbs)
