

**Quality • Innovation • Service**

**Position Title:** Laboratory Intern  
**Location:** ChemMasters – Madison, OH  
**Reports To:** Technical Director  
**Duration:** June – August  
**Work Hours:** 30 hours per week  
**Pay:** \$18/hour

**Kickstart Your Career with a Lab Internship that's Anything but Ordinary!**

Ready to get your hands dirty (in a good way!) and dive into the world of science? Join us as a **Laboratory Intern**, where you'll gain real-world experience working in a cutting-edge lab setting. Whether you're exploring new materials or improving products, you'll be involved in work that makes a difference. This internship is a perfect opportunity for curious, driven students who are passionate about chemistry and want to make their mark.

**Why You'll Love This Internship:**

- **Hands-On Learning:** Collaborate with our Technical Director and lab team, gaining valuable skills you can't get from a textbook.
- **Real Impact:** Test paints, coatings, and cement materials to help us develop next-gen products. Your work will directly contribute to real-world product innovations!
- **R&D & QC Exposure:** Be part of exciting Research & Development projects that create new products and enhance existing ones. Plus, you'll ensure quality is top-notch with daily Quality Control tasks.
- **Growth & Development:** Build your professional skills while learning cutting-edge lab techniques and how a fast-paced, dynamic laboratory operates.

**What You'll Be Doing:**

- Work with experienced lab pros to develop your technical skills
- Run essential tests (viscosity, color, density, etc.) to evaluate and perfect our materials
- Help create innovative products by supporting exciting R&D projects
- Ensure the quality of our production with key Quality Control duties
- Keep the lab organized and running smoothly by maintaining records and following best practices

**What We're Looking For:**

- You're currently studying Chemistry, Biochemistry, or something related (we'll train you to succeed!)
- You're highly organized, detail-oriented, and always up for a challenge
- You're a quick learner who's excited to take on new techniques and tools
- You communicate clearly, love problem-solving, and work well in a team

**Why This is the Perfect Opportunity for You:**

- **Real-World Experience:** You'll be part of an impactful, hands-on learning experience that will shape your future career.
- **Innovation:** Get involved in groundbreaking projects and work with talented professionals at the forefront of science.
- **Growth:** This internship is your chance to build your resume and gain experience that'll set you apart in the job market.

**If you're ready to take your studies to the next level and learn from the best, apply today. Your future self will thank you!**
